

## How to set up DBQ Online with Canvas

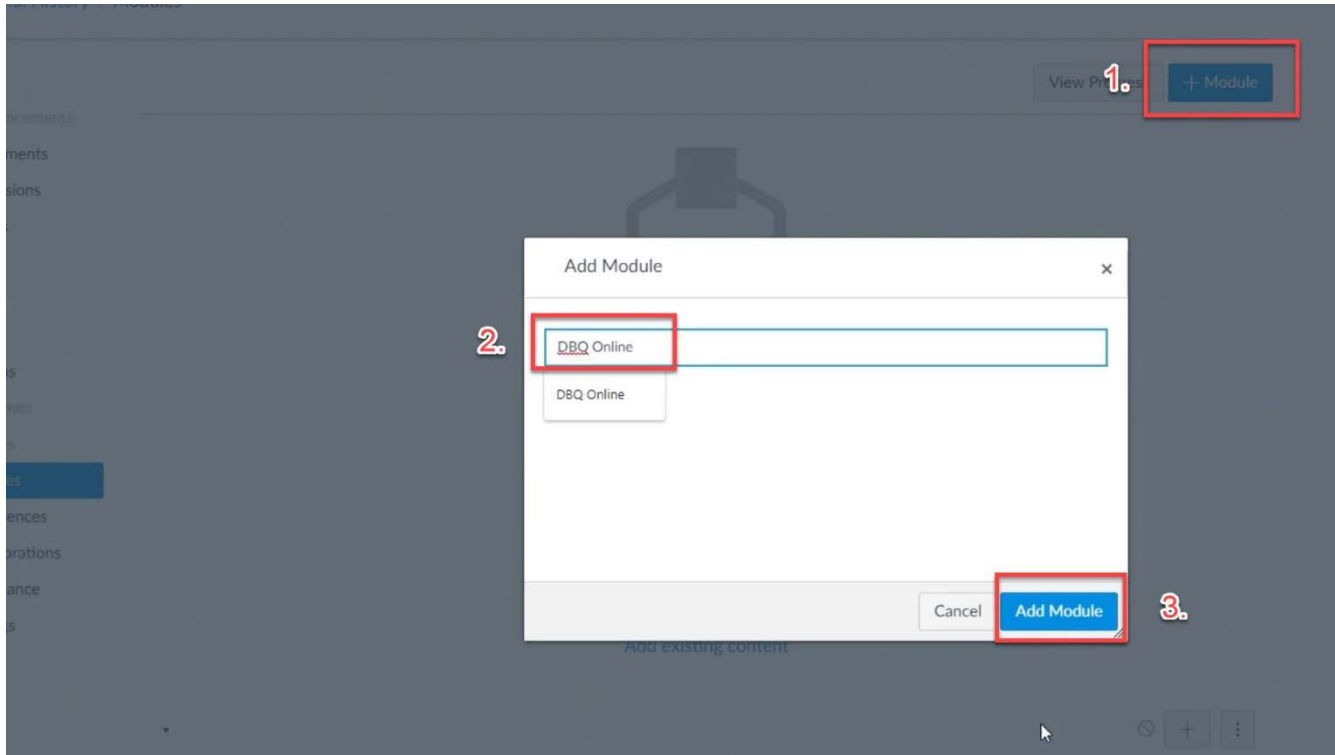

1. Login to Canvas. If you do not know how to do this, please contact your IT Department.
2. Click on your **course(s)** from your dashboard.

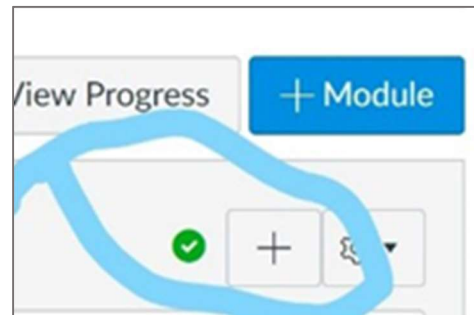

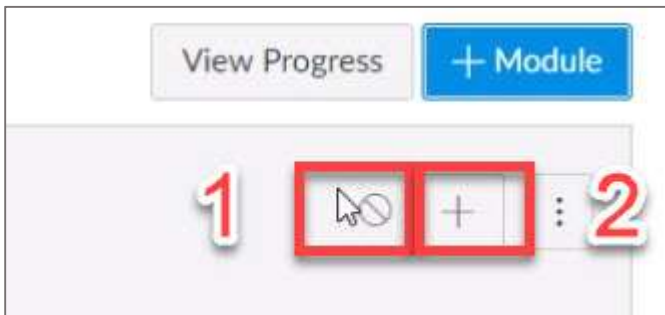

3. Navigate to **Modules** under your class.

4. (1) Select “+ Module”, (2) Name module “DBQ Online”, and (3) Select “Add Module.”

5. To publish module: (1) select the “Ø” button. You should now see a green check (see right image). Now, (2) select the “+” button.

6. (1) Select “**DBQ Online**”, (2) Title Page Name “**DBQ Online**”, (3) Select “**Load in a new tab**”, and (4) Select “**Add Item.**”

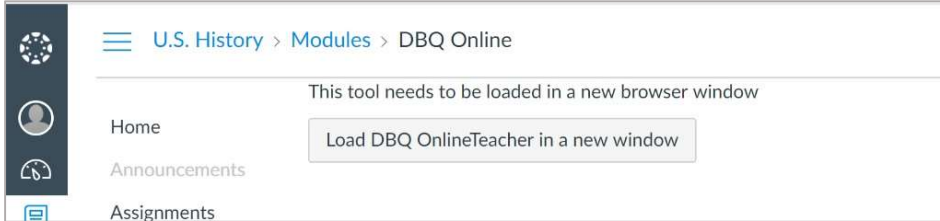

The screenshot shows a dialog box titled "Add Item to DBQ Online". It contains a list of items: "Analytics BETA", "Canvas Data LTI", "Canvas School DBQ Online", "DBQ Online", and "Roll call". The "DBQ Online" item is highlighted with a red circle and the number "1.". Below the list, there is a "URL:" field with the value "https://www.dbqonline.com". A note below the URL says "to use this tool the domain must match www.dbqonline.com". The "Page Name:" field contains "DBQ Online" and is annotated with a red circle and the number "2." and the text "You can title page name". The "Load in a new tab" checkbox is checked and annotated with a red circle and the number "3.". The "Indentation:" dropdown menu is set to "Don't Indent". At the bottom right, there are "Cancel" and "Add Item" buttons. The "Add Item" button is annotated with a red circle and the number "4." and a red arrow pointing to it.

7. Publish the External Tool.

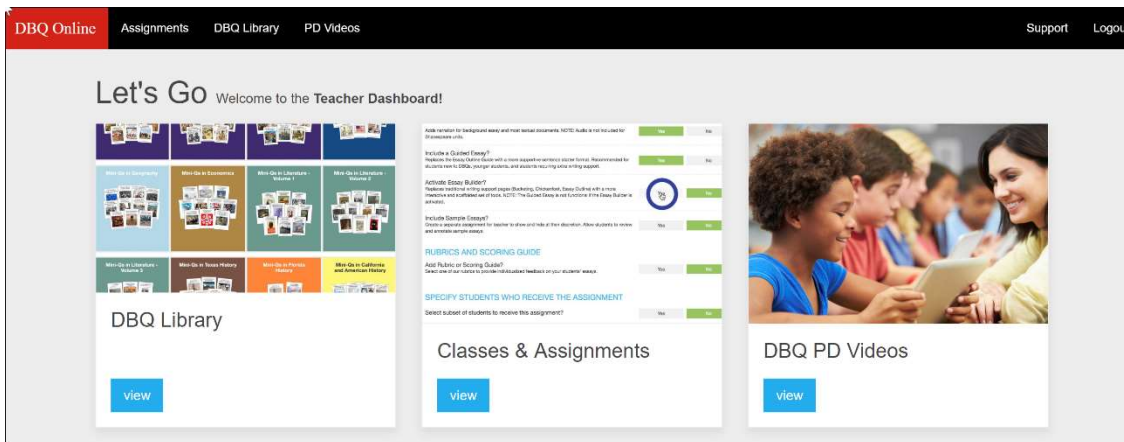

## Set up is now complete! Here's how you will log in:

1. Click on the **DBQ Online** module and click **Load in New Window**.

2. When you first log in, you'll see a Terms of Use. Scroll down and click Accept. Once logged in, you should see **Let's Go - Welcome to the Teacher Dashboard!**
